1. Home Page (Single Landing Page)

This is your only main page where everything happens.

Sections inside Home Page

Hero Section

- Headline: CNC & VMC Job Work in Nashik
- Subtext: materials, precision, delivery
- CTA: Get Quote
- Sticky Call + WhatsApp buttons

Quick Highlights Strip

- Years of experience
- Number of machines
- Accuracy (±0.01mm)
- Fast turnaround

Services Section

- CNC Machining
- VMC Job Work
- Turning
- Custom Parts

Machines / Infrastructure

- Machine list (with specs)
- Capacity details
- Real machine images

Work Showcase (Most Important)

- Image grid of jobs/products
- Each item shows:

- Material
- Process

Features:

- Load more / infinite scroll
- Click to zoom (lightbox)

Industries Served

- Automotive
- Industrial
- Pharma
- Fabrication

Quality Assurance

- Inspection tools
- Accuracy standards
- Process control

How It Works

1. Share drawing
2. Get quote
3. Manufacturing
4. Delivery

Enquiry Section (Core Conversion)

Form Fields:

- Name
- Phone (required)
- Email
- Material
- Quantity
- Message
- File upload

Actions:

- WhatsApp button

- Call button

Trust Lines:

- Quick response
- Confidential drawings

Contact Section

- Phone
- Email
- Address
- Google Maps embed

---

2. City Pages (Dynamic SEO Pages)

These are not separate designs — same page, different content.

Example Pages

- /cnc-job-work-nashik
- /cnc-job-work-pune
- /cnc-job-work-mumbai
- /vmc-job-work-aurangabad

Sections inside Each City Page (Same as Home)

- Hero Section (city name changes)
- Highlights
- Services
- Machines
- Work Showcase
- Industries
- Quality
- How It Works
- Enquiry Section
- Contact

What Changes in Each City Page

- Page Title
- H1 Heading
- Intro paragraph
- Meta title
- Meta description

Everything else stays same.
